SIEMENS
Healthineers 

Welcome to the Siemens Healthineers ecoline.

ecoline stands for high-quality refurbished medical systems from Siemens Healthineers – offering the broadest range of refurbished systems in the industry.

High patient expectations, growing economic pressure: Find a way to master both of these challenges and step up to all-around outstanding performance. Create a leading edge that you'll only have with ecoline – your certified refurbished system from Siemens Healthineers.

ecoline:

- Performs **like new** – since it undergoes a certified 5-step Quality Process
- Incorporates **true Siemens Healthineers quality** – from a worldwide leader in medical imaging
- Provides immediate availability, excellent reliability, and **high throughput** – enabling a fast return on investment
- Comes with a full range of **service contracts** – including updates and upgrades
- Allows for **easy fleet extension** with different modalities – all from a single source

1) According to our Proven Excellence Quality Certificate

Enjoy the benefits of ecoline systems – throughout almost the entire Siemens Healthineers product portfolio.

ecoline performs like new – at an average price advantage of up to

20%

Certified Performance.¹⁾

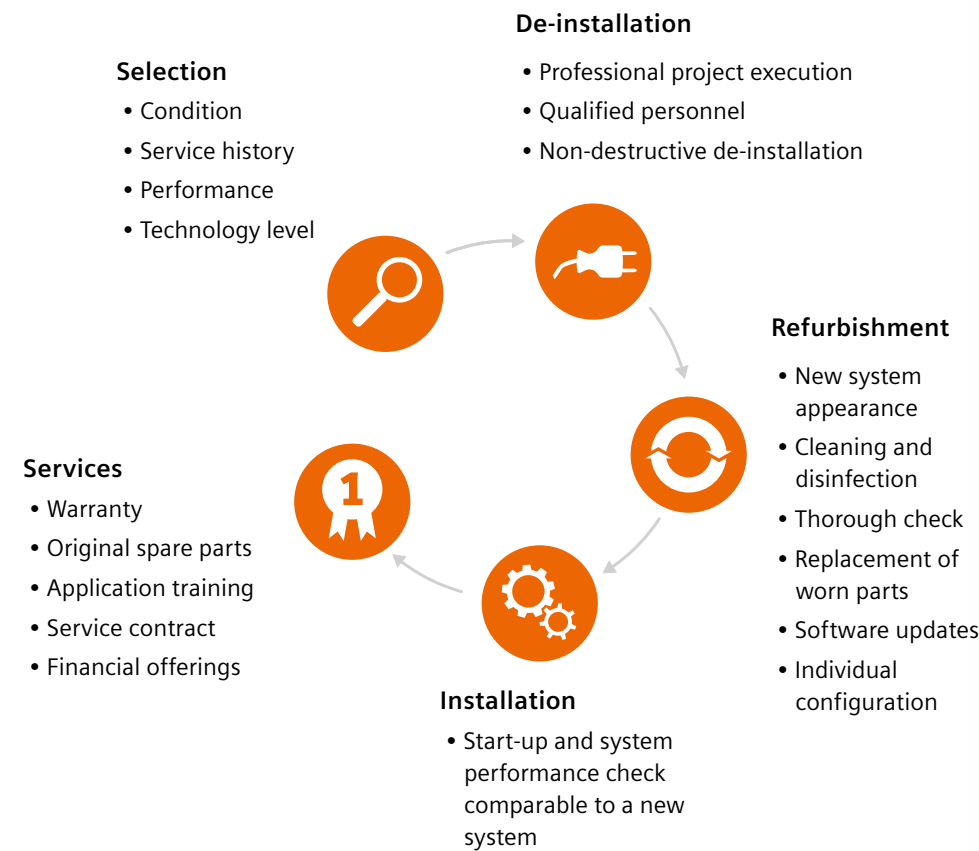

It's not a promise, it's a fact: An ecoline system lets you enjoy unmatched confidence. Only ecoline systems undergo our certified 5-step Quality Process. So you can experience uncompromised reliability and exceptional value with every ecoline system.

All ecoline systems are manufactured following independent certified processes

ecoline systems contain components that have previously been in use and are refurbished to a **quality level comparable to new**. All ecoline systems are **manufactured following independently certified processes** according to the relevant standards for medical devices²⁾, including the **global refurbishment standard³⁾** where applicable.

- **ISO 13485:** The standard represents the requirements for a comprehensive quality management system for the design and manufacture of medical devices
- **IEC PAS 63077:** The standard describes *Good Refurbishment Practices* for medical imaging equipment

1) According to our Proven Excellence Quality Certificate
 2) ISO 13485: 2016 Medical devices – Quality management systems – Requirements for regulatory purposes
 3) IEC PAS 63077: 2016 Good refurbishment practices for medical imaging equipment

Did you also know that ...

... you can choose exactly the ecoline configuration you need?

With ecoline, you can custom configure your system according to your clinical needs – while matching your budget. Choose your basic system and add the configuration and options according to your needs. Whatever your choice, you'll benefit from service, financing options, and application trainings just like you'd get with a new system.

An attractive solution for replacing your existing system.

Do you want to replace your existing system and bring in the latest Siemens Healthineers equipment? Would you also like to free up some of your budget?

It's as easy as this: Just sell or trade in your pre-owned medical equipment. It doesn't matter whether it's from Siemens Healthineers or not. Put simply, you'll combine an excellent deal with fast payment and greater financial flexibility.

Trade-in pays off – for you:

- Get an attractive trade-in value and exchange options
- Be flexible to sell or trade in equipment from both Siemens Healthineers and other vendors
- Enjoy reliable and fast payment
- Reduce downtime thanks to safe and professional de-installation by qualified personnel
- Minimize your effort by getting everything from a single source

“ecoline looks like new and you can't tell if it's a refurbished system. We also can't tell the difference in its day-to-day operation. We'd select ecoline again next time.”

Mr. Satoshi Mizuno

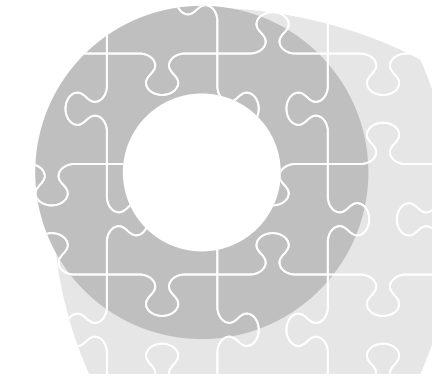

Chief Radiology Technician, Radiology Department, Seikeikai Chiba Medical Center, Japan

Exceptional Value.

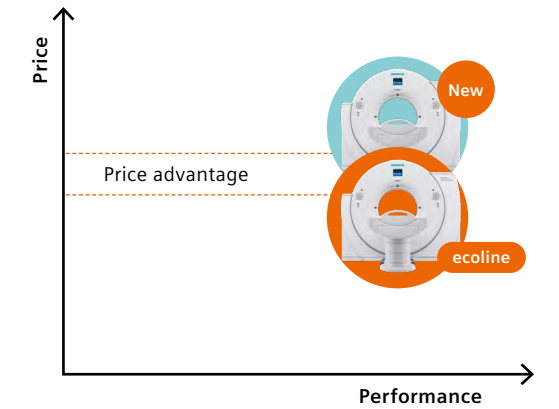

Performs and looks like a new system ...

High-quality refurbishment that gives you the performance, look, and feel of a new system.

... configurable according to your needs ...

Customize your ecoline system and get the applications you need.

... at an affordable price

Differentiate yourself with high-quality equipment from Siemens Healthineers while keeping your total cost of ownership down.

The products/features and/or service offerings (here mentioned) are not commercially available in all countries and/or for all modalities. If the services are not marketed in countries due to regulatory or other reasons, the service offering cannot be guaranteed.
